

Larry Parks

“These products are fantastic, unbelievable!”

TV syndrome:

Larry Parks used to work a solid 12 hours at his dry-cleaning business before returning home. Carrying 319 pounds on his frame, he would be completely drained by evening time. His home life consisted of sitting in front of the television along with his wife, Susan, and falling asleep.

Healthy results:

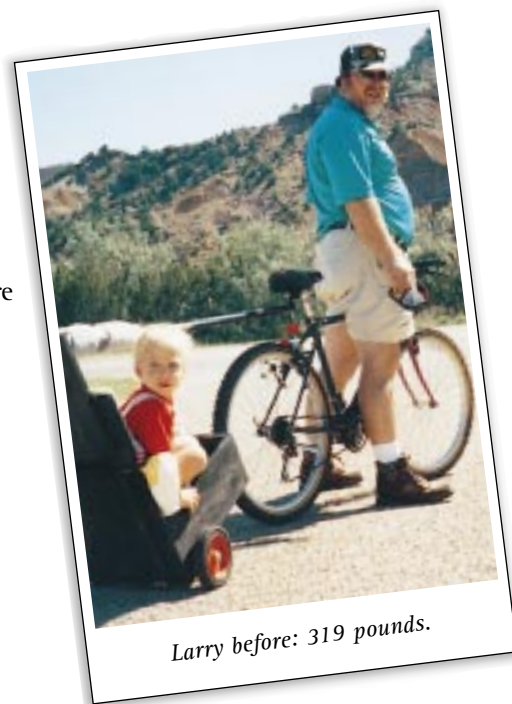

“When my cousin introduced us to Herbalife, we were so excited we drove 100 miles to get our products!” recalls Larry. Both Larry and Susan started on the Thermojetics® Weight-Management Program, and the results were almost immediate.

Consistent weight loss:

“I consistently lost pounds and inches,” Larry points out. “I was also off of my blood-pressure medication. When the Thermojetics® High-Protein, Low-Carb Weight-Management Program came out, I started losing more weight—even during the holidays! In the first seven days, I lost eight more pounds!”

“Even my hair looks better!”:

“People at church notice how slim my wife and I are,” he says. “They actually follow us to our van and ask if they can buy some of the products! These products are fantastic, unbelievable!”*

Larry after: 230 pounds.

Larry before: 319 pounds.
