

## Helps reduce the appearance of cellulite.

Summer fun and bathing suits go together. However, summer is inevitably a time when we become more body conscious—especially if cellulite is a problem. There's simply no way to hide those lumpy ripples on thighs and hips. It can be so bothersome that even wearing a pair of shorts is not an option. That's why millions of dollars are spent every year on liposuction surgery to rid our bodies of this unsightly phenomenon.

But there is another way. Cellulite is actually the result of excess fluid in the body, which causes fat deposits to become trapped underneath the skin. To target this condition, Herbalife has developed Cell-U-Loss®, an exceptional vitamin, mineral and herbal tablet that tackles cellulite at its root by reducing fluid accumulation.

Loaded with Vitamin C, an essential vitamin with antioxidant activity, Potassium, a vital mineral that is often lacking in calorie-restricted diets, and a combination of natural herbs, Cell-U-Loss® is safe and natural. It is also a convenient way to flush out excess water and toxins, as one shrinks the stored-up fat cells that cause the appearance of cellulite. Not only that, you can hit the beach this year looking trim, toned and feeling great without drastic cosmetic procedures!

Cell-U-Loss® works even better when combined with Dermajetics® Body Buffing Lotion and Body Contouring Creme to tighten and smooth the outer surface of the skin, and Herbalife's Thermojetics® Weight-Management Program to facilitate a low-fat, nutritional regimen.

## Discussion Points

- **Let nature in:** Instead of opting for expensive and painful liposuction surgery, let nature take its course with Cell-U-Loss® to help reduce the appearance of unattractive cellulite.\*
- **A slimmer, smoother you:** Cell-U-Loss® reduces fluid accumulation, an effective way to lessen the appearance of cellulite by smoothing out the rippling effect.\*
- **Combine with other Herbalife products:** Cell-U-Loss® is designed to be used in conjunction with Herbalife's Thermojetics® Weight-Management Program to reduce cellulite while losing weight.\*
- **Battling cellulite inside and out:** Cell-U-Loss® works well with Dermajetics® Body Contour Creme and Body Buffing Lotion, which tightens the outer surface of the skin.

## Did You Know?

The truth about cellulite is that it can affect even the most slim and trim body. Regardless of age or weight, many people develop a dimpling of the skin, a problem so persistent that even a balanced diet and regular exercise cannot completely make it disappear. And, once it occurs, cellulite is impossible to hide.
