

Chew Slim Gum

Chew your hunger away.

For all those calorie-conscious people who've wondered how to get through those difficult between-meal hours, Herbalife delivers some great-tasting relief. With Chew Slim Gum, you can pop two pieces in your mouth the moment your stomach starts growling. It will help curb those hunger pangs and keep you on course to reach your target weight.*

What makes Chew Slim Gum so effective?

It's a powerful blend of special hunger-taming herbs that work together to help you stay on top of your diet.* Among other ingredients, Chew Slim Gum features Siberian ginseng, which is widely believed to work as an adaptogen. This means it can possibly help you adjust to situations more effectively and thus produces a "normalizing" effect on your system.*

Chew Slim Gum also features kola nut powder extract. Kola nut possesses mildly stimulating properties similar to that of caffeine. It is used widely as a good general tonic. Another major ingredient in Chew Slim Gum is stevia powder extract. Actually sweeter than sugar, stevia is almost calorie-free and is believed to help maintain your body's blood-sugar balance while providing a very slight energy boost.* As a result, Stevia is excellent for use in a weight-control product.

If you're trying to lose weight, you know all too well that those between-meal hours are the hardest ones in the day. Chew Slim Gum will help make those periods easier to navigate. Besides, it's a great-tasting, mint-flavored chewing gum—one that doesn't burden you with unwanted calories. Put some enjoyment into your weight-loss program with Chew Slim Gum.

Discussion Points

- **Chew Slim Gum is made from natural herbal ingredients:** An herbal chewing gum? Of course! The natural ingredients of Chew Slim Gum work together to help curb hunger pangs, thereby keeping you on your weight-loss track. Dieting doesn't have to be difficult—and it isn't when you use Chew Slim Gum as part of your Thermojetics® Weight-Loss Management Program.
- **Chew Slim Gum features natural sweeteners:** Stevia Powder Extract is an all-natural sweetener that's sweeter than sugar—not to mention better for you.* In Chew Slim Gum, stevia powder extract works with peppermint oil to provide a refreshing taste that's sweet without being overly so.
- **Chewing satisfaction gives dieters a psychological edge:** Part of the comfort people receive from food is rooted in the sheer satisfaction of chewing something of substance. Chew Slim Gum provides this satisfaction without providing the drawbacks that can accompany it, calories.

Fast Facts

- An herbal chewing gum that helps decrease between-meal hunger pangs.*
