

# Thermojetics® Gold Dietary Supplement

When it comes to losing weight, good intentions can fly out the window when hunger pangs hit. One of the biggest problems with many weight-management programs is how to feel satisfied while eating less. Another problem is how to burn fat and build lean muscle mass because dieting itself can slow down your metabolism.

## Thermojetics® Gold—the “thermo” effect

Now you can do both with Thermojetics® Gold. As a key element of Herbalife's Thermojetics® High-Protein, Low-Carb Program, Thermojetics® Gold addresses these issues and more. This breakthrough herbal-based supplement is designed to speed up weight loss by raising your metabolism and lowering your desire to eat. Its combination of scientifically blended ingredients can help reduce hunger pangs, curb your cravings, diminish your obsession with food and provide an exhilarating lift all day long. Thermojetics® Gold is a premium product that offers weight-loss support in a natural way you've never experienced before.

## Discussion Points

- **Synergistic system:** Thermojetics® Gold works best when taken with the other Herbalife products in either the Thermojetics® High-Protein, Low-Carb Program or the Thermojetics® Weight-Management Program.
- **Hunger relief:** Minimizes between-meal hunger pangs and provides increased energy at the same time.\*
- **Burn calories:** Thermojetics® Gold addresses the important issues of metabolism and thermogenesis—which is your body's natural ability to burn calories and fat.
- **End the “yo-yo” syndrome:** Thermojetics® Gold makes it easy to stay on your weight-loss program by providing maximum nutrition while reducing “carbo” urges.\*

## Did You Know?

An article in a 1999 issue of the prestigious *New England Journal of Medicine* indicates that overweight men and women may be at an increased risk of death from cardiovascular problems, cancer or other diseases. It goes on to say that health risks rise even for the moderately overweight, affecting men and women of all age groups equally. And, according to the National Health and Nutrition Examination Survey (NHANES III), the prevalence of overweight and obesity for adults in the United States is more than 60 percent. Americans are getting heavier and heavier!

## Fast Facts

- Thermojetics® Gold is a unique blend of thermogenic herbs that help burn fat and curb appetite in several ways.\*
- Contains *Sida Cordifolia*, an Ayurvedic herb from India with appetite-suppressing alkaloids known to increase energy and metabolism.\*
- Includes two sources of Bitter Orange Extract, an herb used in China for thousands of years for fat loss, thermogenesis (fat burning) and building muscle mass.
- Includes two diuretic herbs (*Uva Ursi* and *Cornsilk*) to help promote water loss during weight reduction.\*
- Contains the flavonoid Quercetin, which is extracted from citrus fruit, to provide a calming effect and help balance the actions of the other herbs.\*
- Use in conjunction with all other products included in the Thermojetics® High-Protein, Low-Carb Program.
