

Thermojetics® High-Protein, Low-Carb Program Weight-Loss Management Soup Mix

Cream of Chicken

A big complaint about most diet programs is the lack of variety in food substances. One can grow weary of eating or drinking the same thing every day.

Herbalife has taken weight loss to a new dimension for the new millennium. Not only does its new Thermojetics® High-Protein, Low-Carb Program offer a variety of products, including shakes, snack bars and fruity drinks, the program also features a mouth-watering soup.

This is not an ordinary soup. It's teeming with nutrition, including 15 grams of high-quality protein. Plus, it's low in carbohydrates and calories, which is a unique combination for a soup. And it's packaged in travel-sized, easy-to-use, single-serving pouches. Simply add hot water and enjoy! Makes a great between-meal snack.

Discussion Points

- **Instant nutrition:** Whenever you want a small, quick meal, mix yourself a cup of soup. Simply add hot water to a packet of Thermojetics® High-Protein, Low-Carb Weight-Management Soup Mix and sip away.
- **Curb hunger:** Loaded with 15 grams of pure protein, the Thermojetics® High-Protein, Low-Carb Weight-Management Soup Mix will leave you feeling full and satisfied.
- **Flavorful:** Here's a soup mix that's not like any "diet food" you've ever tried. It tastes as good as it is good for you!

Did You Know?

During the last 30 years, diet "experts" have continued to blame the consumption of fat as the root of America's weight problem. While Americans are eating less fat, they are (whether they know it or not) eating more carbohydrates in the form of refined sugar and flour often contained in so-called "fat-free" food products. During this same period of time, obesity has increased from 25% of the population to 33%, and heart disease now accounts for 50% of all deaths, up from 40% in 1970.
