

Mega Garlic Plus

Natural support for good health.

For thousands of years, people all over the world have been using garlic for everything from warding off evil spirits to preventing colds. According to modern science, it looks like the ancient medicine man was right—at least about garlic's healthy attributes.

Garlic may not ward off vampires, but as the numerous scientific studies continue to indicate, it certainly appears that this tasty herb plays a major role in health.

Herbalife has combined the highest-quality garlic with synergistic and compatible herbs to create Mega Garlic Plus, an exclusive product that increases the overall benefit of garlic's healthy actions. And you can enjoy garlic's wholesome goodness without the aftertaste normally associated with garlic tablets.
